$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

Play with a partner or individually.

Each person rolls one die and writes that number down, to make a problem.

Then students create the fact families that go along with that fact.

Solve the problem and roll again.

ex: player 1 rolls 5 / player 2 rolls 6

$$5+6=11$$

$$6+5=11$$

$$11-5=6$$

$$11-6=5$$
