

# Apple Flip Book

Students will write a number on each flap. Depending on what is being studied and grade level you can have students write numbers counting by 1's, 2's, 5's, 10's etc. Next, students will cut on the dotted lines and then fold the book on the solid line. Students may draw the number of apples that is written on each flap, or cut out the apples provided and glue them into the flip book.
