

Build a Body

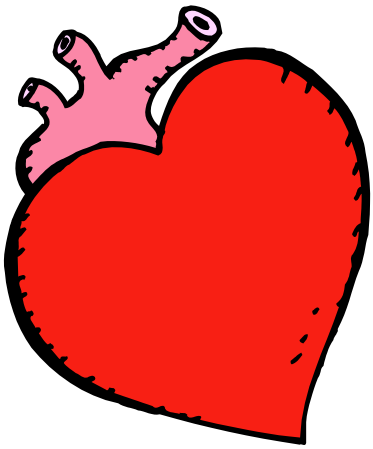

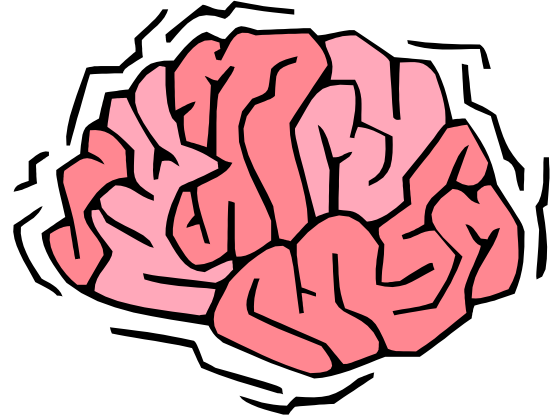

Materials Needed

Butcher paper

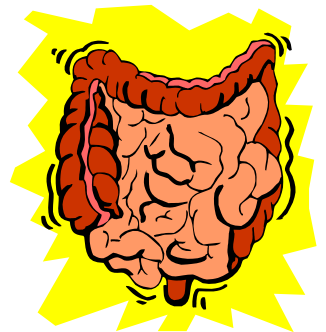

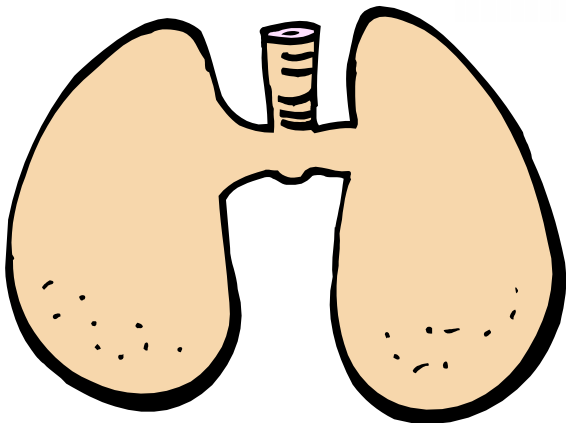

Glue

Printables of organs

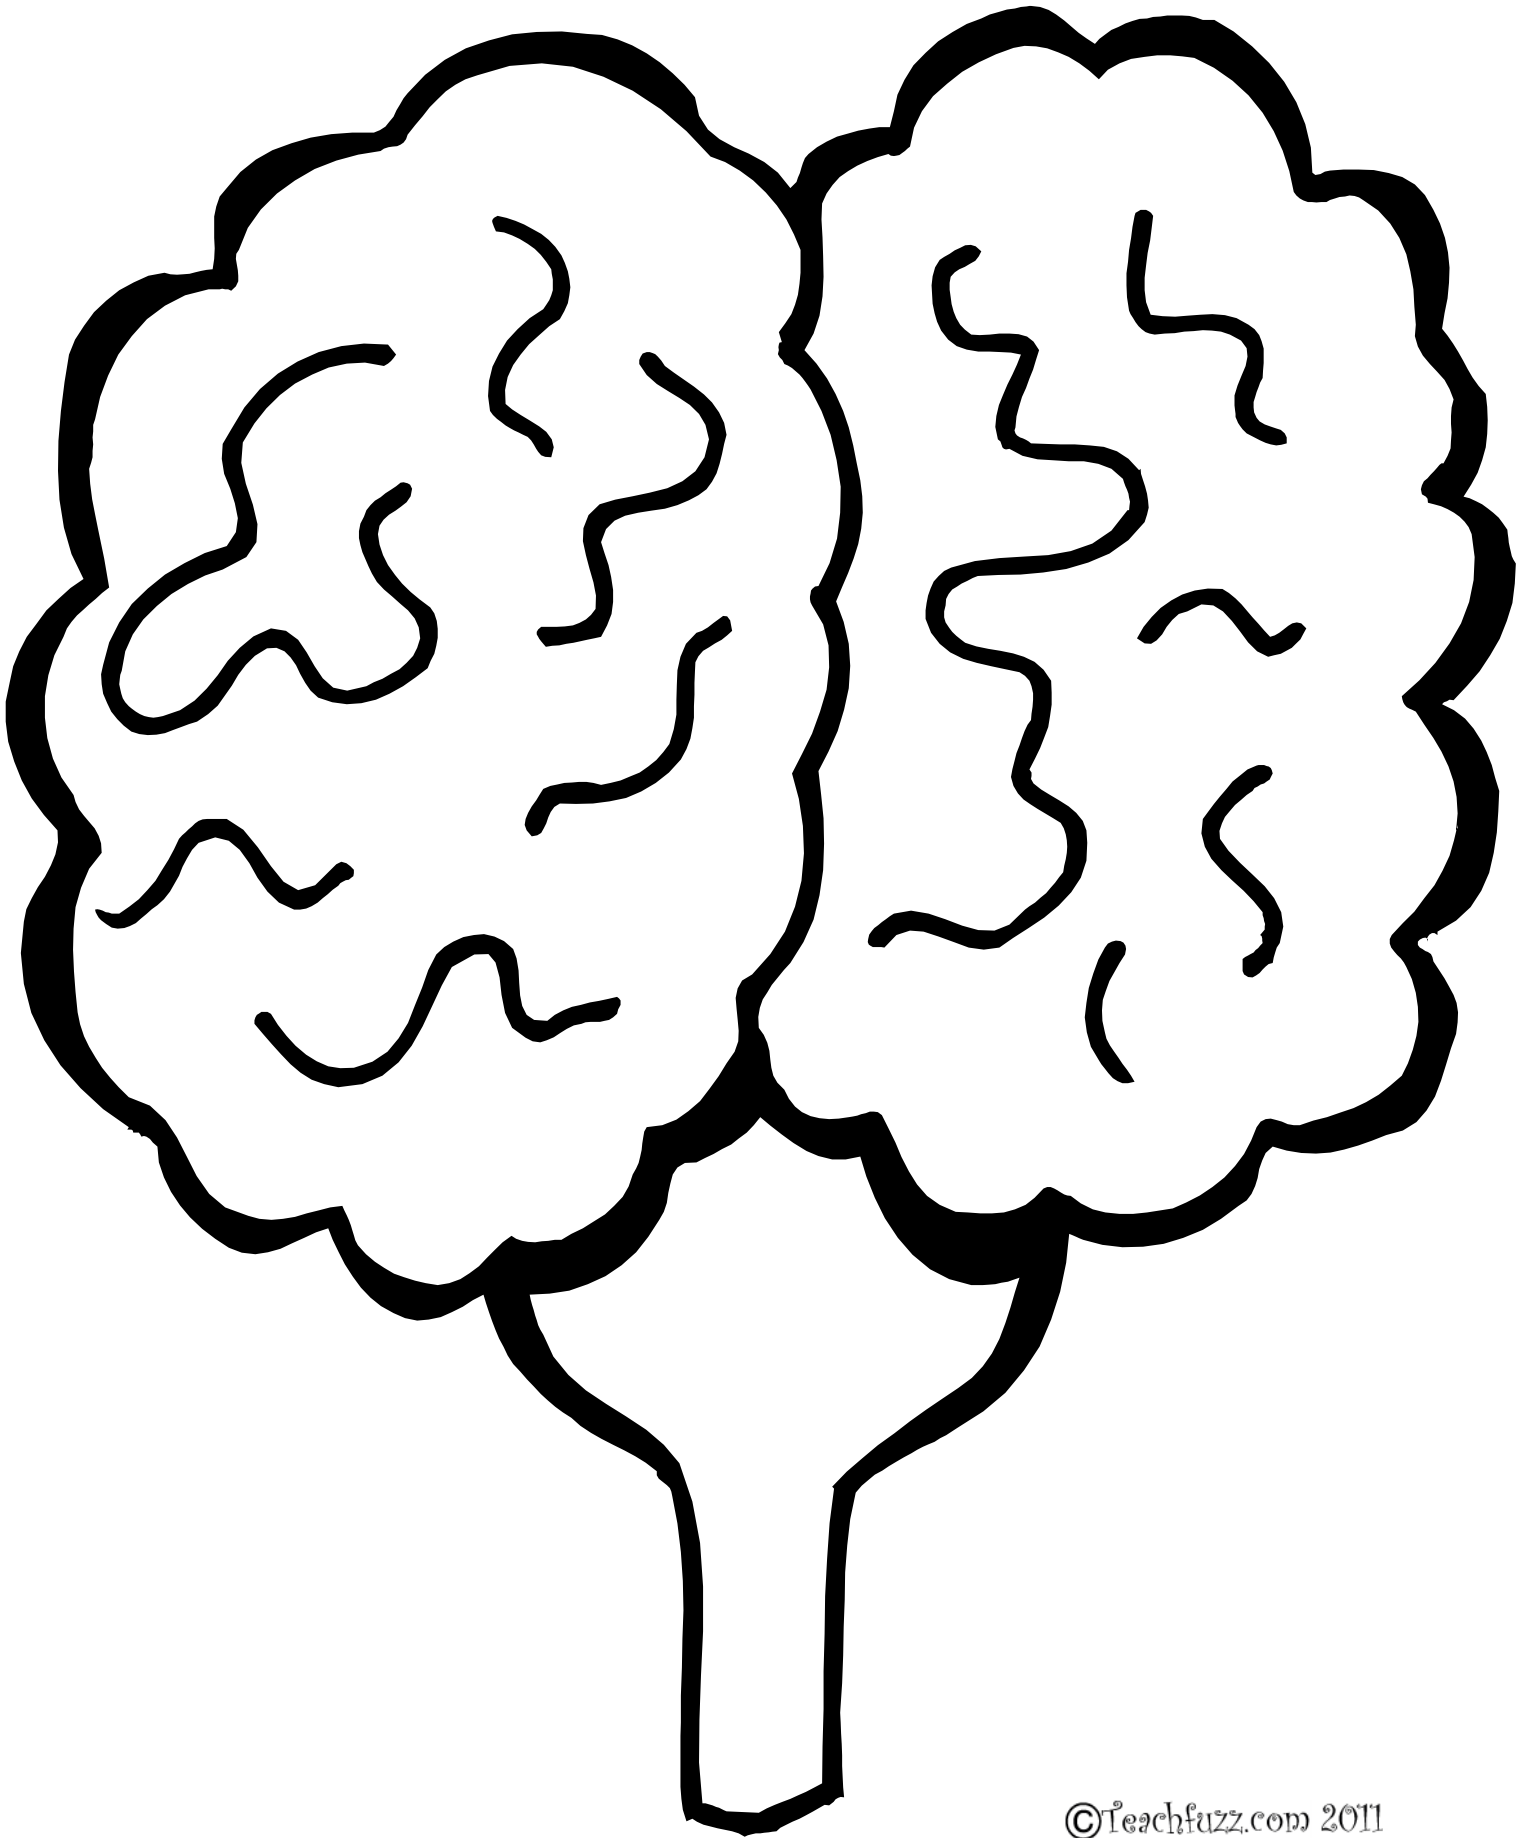

Markers/Crayons

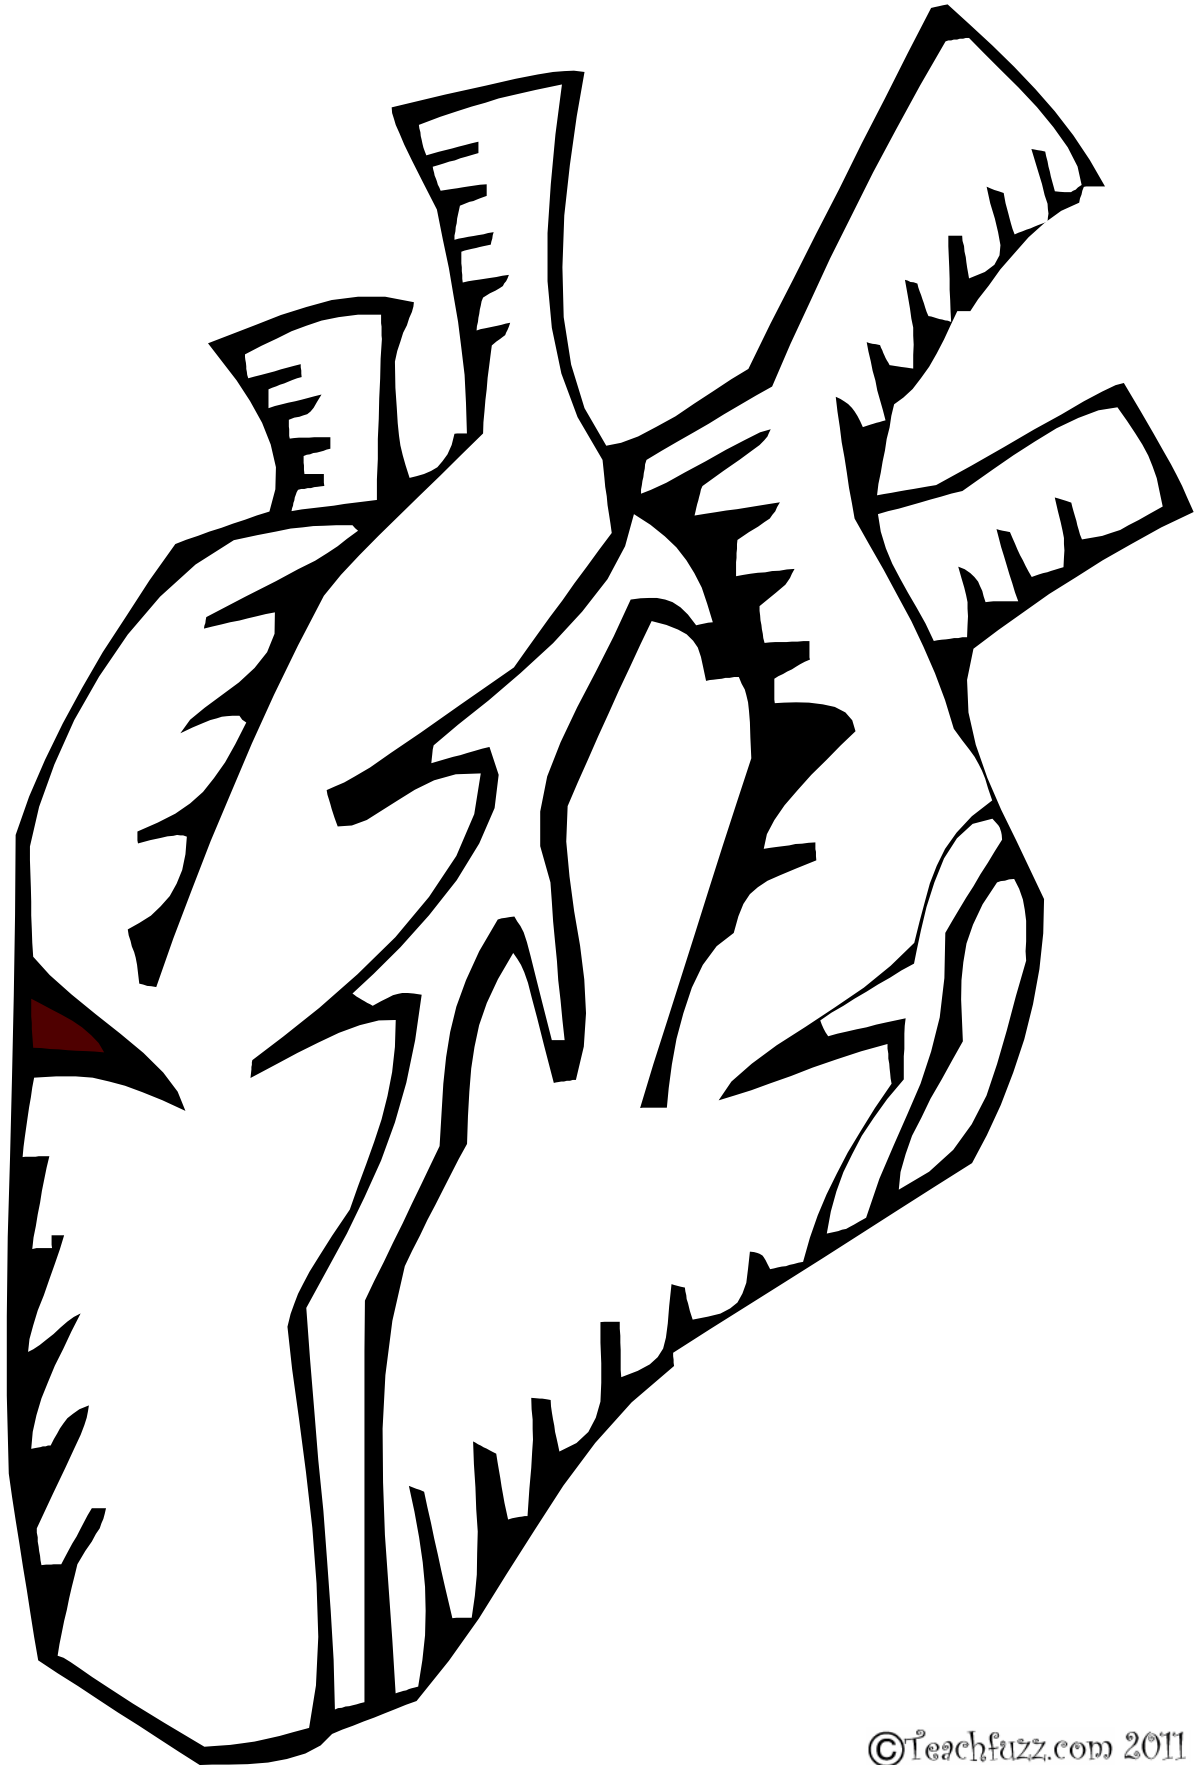

1. Students will take turns tracing each other on butcher paper. Students may cut out their body shape.
2. Next, students will color and cut out each organ.
3. Finally, students will glue the organs onto their body pattern in the correct places.
4. Students may label the organs, draw veins and bones, depending on grade level.

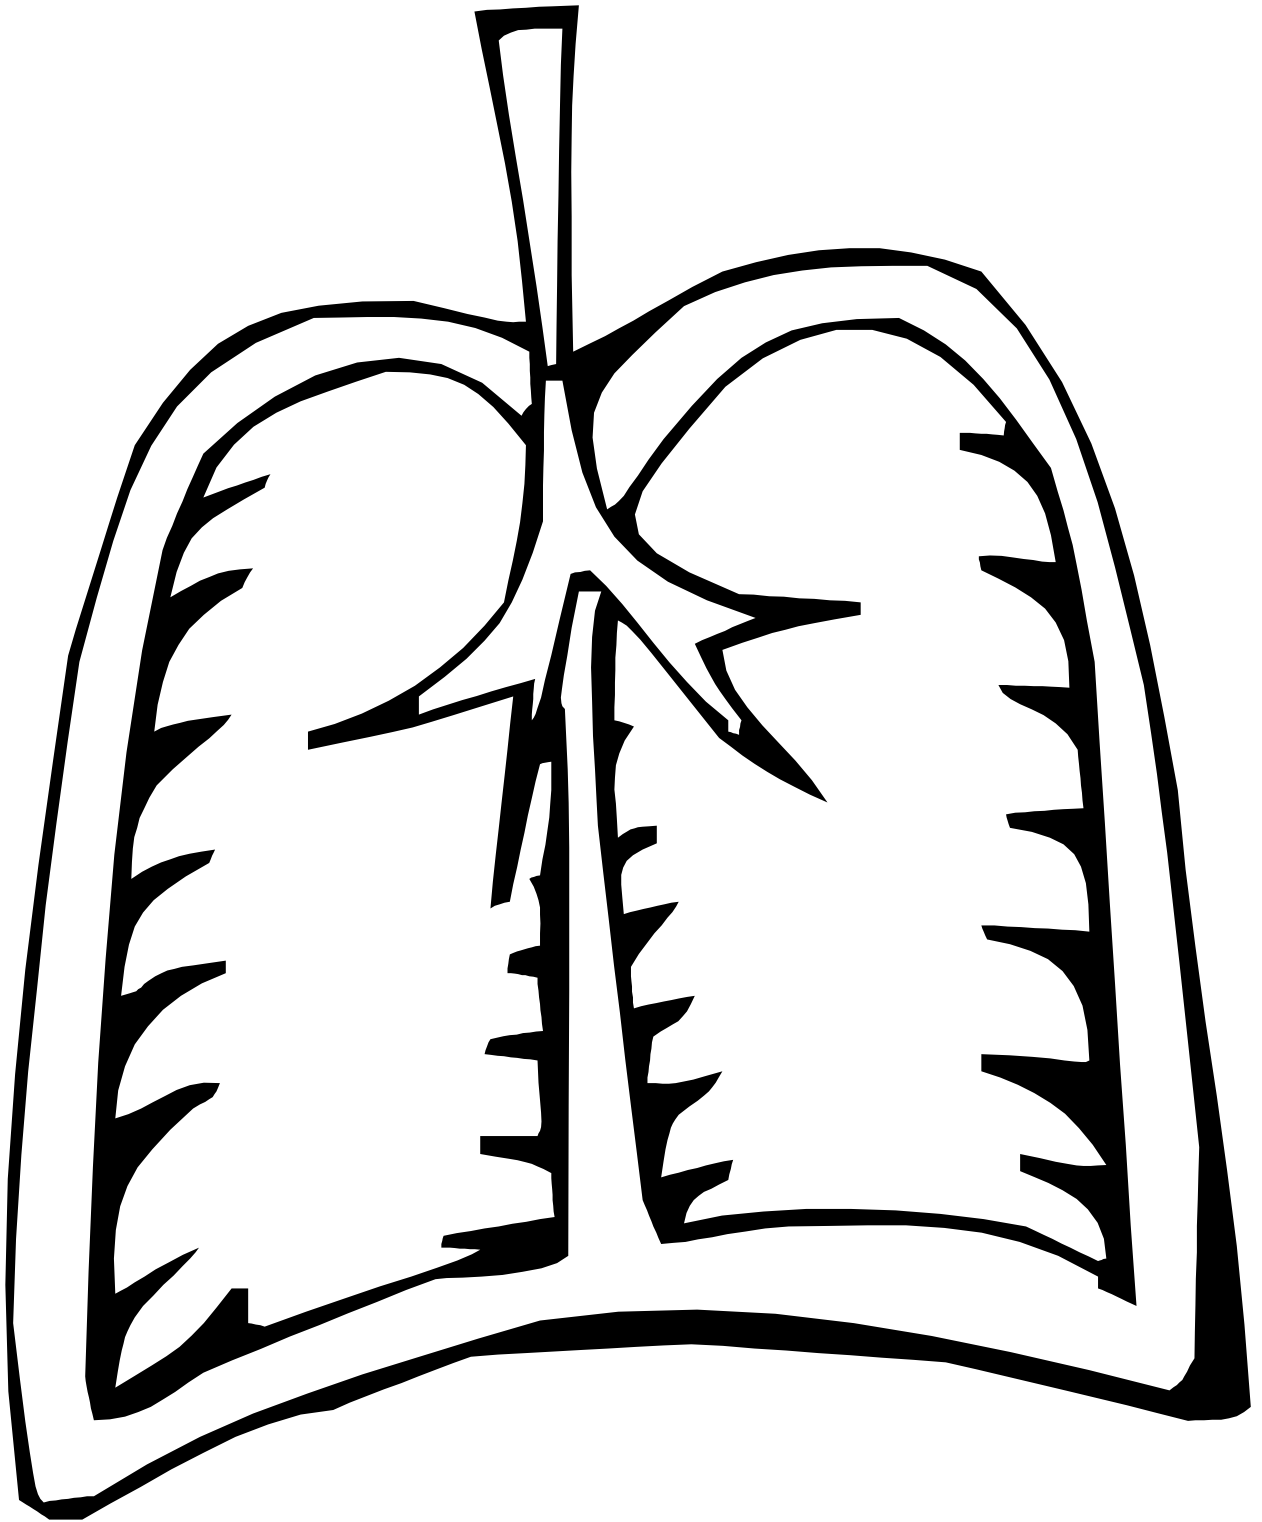

Brain

Heart

Lungs

Large and Small Intestines
