

Matter, matter everywhere.

There's matter in your hair.

Matter in the air.

There's even matter in a pear!

There's liquid matter, solid matter, and matter that's a gas.

Even you are matter, because you have volume and mass!

Matter, matter everywhere.

There's matter in your hair.

Matter in the air.

There's even matter in a pear!

There's liquid matter, solid matter, and matter that's a gas.

Even you are matter, because you have volume and mass!

Matter, matter everywhere.

There's matter in your hair.

Matter in the air.

There's even matter in a pear!

There's liquid matter, solid matter, and matter that's a gas.
